Subject: Re: Apple IIgs Video Games Source Code
Posted by AppleIIGSMarc on Wed, 22 Oct 2014 00:46:50 GMT

Here's a link to a ShrinkIt file containing the source code for an Apple IIGS version of Dr. Mario (a Tetris/Columns style game). It's not terribly impressive graphically and the game lacks music, but it's GS/OS compatible and the code looks pretty well commented.
