I discovered a misconfiguration on the site today and have fixed it.

The site was allowing anonymous users to see member details. This was NOT intentional and I am profoundly sorry. I don't believe anything listed was too personal, but I take your privacy very seriously.

Now anonymous users can only see your login name. This is intentional as I still want anonymous users to be able to read the forums with the login names intact.

I know that I do not do much to moderate the site, but that doesn't mean that I don't care or take it seriously. If you ever see anything wrong, please feel free to PM me.

Thanks
