Hi everybody.

I've set up this new forum software to try to provide a nice place for us to all talk and collaborate. I'm still configuring things, and will probably need some people to step up as moderators, so bear with the changes and general disarray.

Hi Dagen,

Thank you for adding the forum.

I hope it is well secured and that my messages and profile will be safe here!

Antoine

Hello.

My name is Matej. I am from European Union. I compose music and make pixel art pictures on Atari 130XE.

I also own C64. Now I had bought Apple 2 GS + Apple Color Monitor + 3"5 FDD / 5"25 FDD + Apple Mouse + Apple Keyboard.

I was huge Apple fan (I still own Apple Power MAC dual G5). But now I am more Atari fan + PC daily user (I miss PowerPC or 680xx in MACs).

So what can I do (or will learn to do):

- music (mod or ensoniq)
 - pixel art (deluxepaint)
 - sprites (any software)
-
